GENERAL ASSEMBLY

STAND-UPS

Christoph Rahmede
DSI Lead Instructor, GA London

AGENDA

- What is a stand-up?
- Running a stand-up within DSI
- Our stand-up schedule

OBJECTIVES

- Understand the purpose and structure of a stand-up
- Be able to recognise and make a good contribution

WHAT IS A STAND-UP?

A "stand-up" is a short, daily meeting.

***Agile** - A set of principles that encourage collaboration & rapid development.*

3 PART STRUCTURE

1. **What went well yesterday?**
2. **Are there any issues or blockers in your way?**
3. **Anything else you'd like to share?**

WHAT IS A STAND-UP?

A stand-up is not a problem-solving or issue resolution meeting.

WHAT IS A STAND-UP?

A stand-up is not an assessment for managers or other stakeholders.

A Stand-up serves for closer working relationships and enhanced communication.

A Stand-up gives a team autonomy over their work.

A stand-up allows us to identify problems early on and promote follow-up actions and conversations.

RUNNING A STAND-UP

RUNNING A STAND-UP

- 9:00am: Come to the front and prepare your stand-up (2-3 mins)
- Daily stand-up (10-15 mins)
- Group discussion

RUNNING A STAND-UP

- Each person speaks for 30 seconds - we will be timing you!
- Only one person speaks at a time
- The speaker must be specific

RUNNING A STAND-UP

~30 seconds

1. **What went well yesterday?**
2. **Are there any issues or blockers in your way?**
3. **Anything else you'd like to share?**

“I understood how to get access to the lessons on github and I used this knowledge to pull the lesson files to my computer.”

“The problem I have is that my while loop is running forever, so I need some help to get it fixed.”

“I don’t understand the difference between the original and the forked repo, so I’m not entirely sure if I’m doing the right thing.”

“Yesterday I went to a very exciting data science meetup about deep learning.”

“With the nice weather I took the occasion to relax sitting in the park.”

“Yesterday I learned about github.”

“Today I’m looking forward to learning about python.”

“I don’t have any blockers at the moment.”

DON’T BE LATE

If you are late please enter and join the round quietly.

STAND UP STARTS TOMORROW!
